

FUN HOUSE ALBUM LYRICS - Verbal + Icarus

01 FOLLOW ME

Verse 1:

I never thought I'd open these locks
For one to come inside and ride my mind
Here go these thoughts, here comes a heart
All these joys and pains in melodies
If you don't know me I be the one they call B
The son of Daedalus or you can call me Icarus V
So won't you gather around this gothic sound that I've found
It's blazing so in case of fire use caution please

Chorus:

Just follow me, Just follow Me
I'm kinda like the perfect guide
Just follow me

Verse 2:

Baby, lemme be your necklace
Let me hang 'til you're breathless
Like a baby born chestless
I'm your baby more or less it's
Best this be kept under a wrap for they snatch or arrest us

A loving like this, they jealous in your eyes
Your body catching looks from the fellas and the guys
Hop in the ride you're the Bonnie to my Clyde
If our love is a crime then crime is on the rise

(Heh) Thought I might trip
Might depend on what type of Thai I might get
See I won't leave you high and dry but I might leave you high and wet
(Heh) See what type of guy she gets- with
Nitwit with a dry wit, shit
If I were you I'd date me, if I were your dad I'd tell you to hate me

Other brothers gotta be pissed, tiffed, 'cause they ain't getting loving like this
Big girl, thick girl and she got a fatty, you got a new daddy you could follow my wrist
You say without me you're lost, so I'm kinda like the perfect guide
They say nobody's perfect, so I'm kinda like the perfect guy.

02 FAME

Chorus:

Cover magazine? Inebriated dream
Sandman told me stay away I should keep
A twinkle in her eye caught a twinkle in mine
Asked her what her name is she said baby I'm famous
Her name is Fame, it's Fame
And that's her game, the game
It's Fame, Fame, Fame

Verse 1:

Oh what shame
Fame is the name of a dame with a flame for a frame
Got a real hot bottom and she roll with a lame if You knowing his name and he cold in the game
Then she by his side like a weapon on a cop, Wheels on the ride is he ever gonna stop
Pro'ly when she caught selling rocks for rocks
In an episode of cops that shot for fox (till then)

Keep your eyes on her eyes and hips, her thighs and lips so thick
I might just trip inside her, drip inside her, like a candlestick
She flicks my Bic so quick just get my lighter I can't handle it
Ain't no room if it ends too soon just tell 'em that me or fame came to quick

There's a vein in my main prick which makes me cocky when I spit
Basically means to all you lames that I am way to vane and sick
I am way too cray and sick I'm out my mind (mind), mind (mind)
I'll meet fame again jus give me time

Chorus:

Verse 2:

Heaven between her thighs, I thought I died.
Her body was the truth why would I lie?
She made animals feast on her flowers.
So between her two lips (tulips) they would devour.
They came two at a time
Barely apart.
Which is pro'ly what made you wetter than Noah's Ark.
Why you use your visage as a tool.
Why you used my pockets like swimming pools,
Like Scrooge,
You used, I was your passport.
She like baby what you think I got this ass for?
I know if given the chance she's fuck my mother and my brother but her loving make me stutter
C-C-Cover-

Chorus:

03 SATISFACTION

Pre Verse:

Baby what your name is I can make you famous
Music to your ears just put me on your playlist
All these other lames is playing these games
It's time for a change I can show you what change is, yes

Verse 1:

Ooo you so scandalous
Body tight lips so right yeah I'm a fan of it
But you're not mine you're his
You call me on the daily, like you are my patient teasing with payment
Girl gimme gimme gimme gimme
How could I get caught in this? Don't know.
Morals slipping through these fingertips
We know how this unfurls, this girl she rocks my world
With just the simple words
gimme gimme gimme

Chorus:

Satisfaction
Satisfaction
Satisfaction
Satisfaction
You know just how I like
Goddamn I'm so excited
Ooo girl you drive me wild
You gimme gimme gimme gimme

Verse 2:

Gimme gimme gimme satisfaction now
This skinny got a jimmy that'll shut shit down
The butt so right and the strut so tight that I'm feeling like I might just (—) right now

But I might not right now
it's looking like it's 'bout to get real hot right now
See when the lady shake suck the venom out a snake
Which is sounding ok just don't bite down

Hoping that I poke the meanest with a dope demeanor like a social senior
She roll and she cold when she hold the penis
Gimme brain 'til it smarts that's a stroke of genius

I'm chilling' like a villain who be killin'
Better get the penicillin I'm about to get to illin'

Shit's about to hit the ceiling when revealing' how I'm feelin'
Got her feeling like a patient with the way that I be drillin'
Makin a mil' and then I spend it on some shit that be revealin'
While I'm chilling in a villa in the middle of Manilla
Then I hit her with the thrilla', climb her building like gorilla
Give a taste just like a dealer when she lick me like vanilla

So hop in the baddest ride, every good king need a queen by his side
I breathe ya, you don't know how much I need ya So the only way I'll leave ya is satisfied

Chorus:

04 BENDER

Chorus:

Home la da da
Is the place to be
With you
You're my destiny
I say these things here on my knees
Oh please get me home

Verse 1:

I'd love to tell the story if I could, where I should, how it all began
'Scuse me if I'm slipping', I've been sipping', tripping' on another lost weekend
Such a fool, all these drinks is pools and I think I'm caught up in the deep end
Yet I feel the marijuana creepin', next time I think I'm gonna sleep in-wait

Where was I? Oh yeah my mind's like what a child's idea
Of frights like without a night light Miller High Life 'till I fight my peers-wait
What do I spy hear? An angel with a nice tight rear
At an angle, I might just veer, the future, my love's light years- I'm gone

Chorus:

Verse 2:

Home, wish I was that 'stead I'm on one back at Matt's flat
Drinkin all Jack, it ain't half-black tryna duck and be heard I'm Afflack
Opportunity? Yeah, I blew that, 'cause I'm crazy, but you knew that
You don't see you and me but I do C, U, N, T...

Wait, I shouldn'a said, what I said, befooreeee
That's my fault I tried to make it look nice like decooorr
But that's me, I'm old school like a b-boy don't be destroyed
When I'm on my grind then you know I shine
I'm Bruce Leroy when I'm gone

Chorus:

Bridge:

Home

(Can't pretend ta, not offend ya, I wanna bend ya, I'm on a Bender)

Get me home

(Can't pretend ta, not offend ya, I wanna bend ya, I'm on a Bender)

Verse 3:

Now where did I find you

Oh... somewhere that I was blind to

Now where am I supposed to go now

I guess that I've gotta go down

Now where was I and where you to go

What can you do? This type of brew is slow

All I wanna do is fall in love with you and take you back to my place and do

The things that animals were always meant to do and go (home)

Oh please

(Let's go)

Oh please

(Let's just go home)

Oh please get me Home

05 YEAHYEAHYEAH

First thing's first my stroll is some mean shit

Got 'em thrownin' up my flow is so bulimic

On any given Sunday I could be Willie Beaman

A lot of emcees say shit but they don't mean it

What I mean is, this what the scene is

This script is seamless writ straight from a genius

Hitched with some teamsters this beat be the meanest

I should have docs from Venus enter it intravenous

Back with a passionate rap, slapping the taste

Packing a magical sack to inhabit the place

Then I'm gliding away with a smile on my space

With bars so wet I could spit on Poseidon's face

Live for tomorrow you don't take my advice that I say

Then be defiant you can start by dying today

Who's higher than me? They should be hired today

Fuck your list it's taking the piss like I'm buying bidets

High in the face, stare at me, I'm eying your face
Why lie? This is why I get high in the place
Vying for space, tryna find a dame with a shape
To shape my mind and shake from her spine to her waist

She playing the chef, telling me what she gone make
You like pie, well baby I'm g'on bake you a cake
I said aye-aye, then I just gave it a taste
The first time what I eyed, didn't go to my waist

I'm working your body your body is innuendo
My body of work is working your body in windows
Pardon me I'm sloppy I'm ordering off the menu
I'm liking your lobby I'm pro'ly g'on like the venue

Baby, lemme continue Mona Lisa your name?
I had a dream about a girl with your exact frame
Her flame lit my flame we playing Match game
And if that be the worst you be the first to get my last name

Ooooh, watchu g'on do
But address me with a 'thank you' like "To Wong Foo..."
Little chicken cheese get cut like Cordon Bleu
You musta missed it got it twisted like you're caught on blue

Ooooh, my pockets on swole' now
Momma playing apostle "You gotsta slow down"
She preaching the gospel but rock's my role now
Blues paying these bills, my stock's so Motown

Plus I got pot now
Thoughts ready to pop they so high they drop down
Patnas ready to rock off ideas I got now
In chairs they cheered till the jeers they got loud

Never sever your peers for years I got down
Put my ear to the ground, while others they shot down
Still blazing' a pound, see how I am now
Hear theremin sounds that's the air I'm in now

Better better your fears get in gear now
Take a sip of your beer this my year the year's now

06 FUN HOUSE

This time we try to get our minds aligned
These systematic screams cut like a knife
And bleed us dry, they bleed us dry

Everyone everything is clawing for your addiction
Why don't you run?
Welcome to the Fun House

Everyday
We pull ourselves together without delay
And crawl our way out of a nasty grave
To be enslaved
Welcome to the Fun House

Everyday
We put our feet right under on solid ground
They reach out from their towers and push us down
Toss us around
Welcome to the Fun House

Everyday
This time we try to get our minds aligned
These systematic screams cut like a knife
And bleed us dry, they bleed us dry, just bleed us dry

07 BIG SIR

Verse 1:

In a white wife-beater and a white two-seater and I'm oh so cold I should carry two heaters
Game so bananas that you could call it Chaquita, My chick so morena I should pro'ly call her
Rita

Rollin' up some reefa actin loco with mi vida
In a city with a biddy Applebaum like Bonita
To you aliens I'm as forgiven as English is
I'm so on fire I should retire extinguishers

I'm in my rap mode just trynafashion a rhyme
This is sex with no love I'm just passin the time
She came and bent, I came and went
Boy Scout orgasm I came intense (in tents)
I will bomb any lame in my space or range
Obama on a dime, I'm the face of change
Spinning like a cradle to minora hit the floor-a
Some chick named Flora actin' salty like Gamora

So I just ignore her give a nod to my pourer, Persian-lookin' chick Chrisitan Amanpour

Jamaican in the mouth like "Do you want more?"
Either baby fly or I'm high as a concord
My life's a bore but you can take you a tour
I'm in a Ross store just faking' like it's couture
Pride or dignity what have you lost more
And at what cost have you lost both to gain more

On this mic I am vanity's whore, the world's insane so what do I need sanity for
Think you pim-pin' like Rudy Ray Moore
Get hurt tryna swing, Julie Taymor
I truly paid more dues, truly played more crews Really drank more booze, you silly mortals
Are victims and morsels, want a portion?
It was over 'for it started like abortion

Twisted like contortion I took I like extortion
Spending 'till I'm bankrupt this is my Wheel of Fortune
A word a caution whoever you be stalking
You looking' like a target I'm an excellent marksman
Just shy a dark skin, actin' like Adam Arkin
No car to park in still got my part in
Been hot and sparking' since yelling' and fartin'
Came out as a dog my style is Ellen Barkin' (Ruff)

Chorus:

I put the rhythm in the denim I put 'em in 'em, in 'em
And that's the minimum I give 'em, go get 'em, my momentum
Is like villain with some venom I spit 'em then I hit 'em
I spin him and whoever with I get 'em, get 'em

Verse 2:

Now pick up the pieces listen this is my thesis this is my mission
For you miscreants to listen to when you caught in this position
This is simply a missive don' misinterpret the words they ain't perfect
Especially when I been slurping on some bourbon (burp)

Or some herbals in a Burgundy suburban
While I'm burping' up some purple haze in the suburbs feeling nervous
Word is bornin' I been Barnanby Jones-in for smoking' something'
Wilin' and hoping karma's open-minded to those who be frontin'

And you know my mind's around you
Just chart a course for my audio it oughta just surround you
Surround sound is nothing prepare for the cacophony
You're gonna be screaming and coughing get-get-get offa me

Flames in the multitude, kill you hold you culpable
My power is powerful with exponents in multiples

Give me a day or two I'll show you, boo
M. Night I'm Unbreakable

Chorus:

Bridge:

You say you want it but you don't wanna give to me
You say you need it but you don't want give to me
You say you want it but you don't wanna give to me (gimme that)
You say you need it but you don't wanna give it to me (gimme that)

08 THE WELL

Aw hell
Here comes another trip down the well
I coulda sworn I learned my lesson last time
Oh the last time
I'm probably out of my mind
Aw hell
Looks like another trip down the dark well
And everytime it passes by
It can't help but catch my eye
Oh the well
Oh the well

09 HOOPS

Verse 1:

You keep on clowning me baby
You know I'm a fool for your love
You keep on stringing me lately my lady
Gonna make me showcase my talents
Well go 'head and use me display me
As long as it brings you a smile
Your fickle personalities I'm willing to juggle while walking this line

Chorus:

Tell me what I could or couldn't do for you to see I'm truly down for you
If you would or wouldn't take a chance, let me in, make me your man
If I should or shouldn't take it fast, take it slow
Lemme know lemme know
I'll jump through any hoops for you girl

Verse 2:

You're my ringmaster come tame
Mold me contort me at will

Shape me just make me perform on your stage before
I let this beast out it's cage
What I gotta do to get you
To shine your spotlight here I'll do
I just wanna be your star
I can do tricks that will make your mind flip
Just show me the way to your heart

Chorus:

Verse 3:

When I perform, I need to know, what makes you come to see the show
You tryna change me, get a grip, you tryna train me, where's your whip
See when you got a lot like Venus Hottentot that's when they drop and see ya
For you to sneak a peek would be nuts I don' break out this elephant trunk for peanuts

This caged lion's in a cage lying God I'm death-defying, breath has left me trying
Right is slightly skying, left as high as I am, Smoking' acrobat, now we high-flying
I'm such a such a fool falling over me
This love's a tight-rope and no one's holding me
A freak show when I go berserk
But it's ok it'll be the greatest show on earth

Chorus:

10 WALK

I took a walk the other day just hoping I'd see you (see you)
And when i walked by i was hoping

Pretty little black girl lost
Tryna find her right behind ya
Chasing like a lillipad
Or a frog on a lillipad
But we all been bogged down by details
Or maybe I'm derailed, hell
Been caught up in this life that i was given
Like a gift, don't be pissed, i was miffed
At one time or another you coulda been something to me, like a doobie
I was smoked, gone, lost
In your forbidden fruit
But I would try and loot like a pirate
I lit my mind with fire but my desire
Was more than i would ever know
Forever flow just for you, too
Who knew where we could go, like ar-ca-peggio (sic)

Forever flow maybe, crazy, i was living life like a lazy day, baby, maybe
Like arrested development
Shit, to hell with this
You can be so elegant and exquisite
When i just squeeze this, mindtastic, I'm fine-tastic
When i blow this tree it's boombastic
But let me stick to topic
Like hands on tits or tits to top stick
I'm ready to rock, i hope i don't know
Like, Bob i got hope
Maybe me and you could elope, nope
She said to me
But i refused to be so easily discarded or
Broken-hearted
So i just sat there lethargic, then
I was feeling energizing
Arising like the sun
Hoping we would have fun
One day maybe even meet on Sunday

Strolled through the park the other day Hoping I'd see you (see you, see you)
I took a park (sic) the other day hoping I'd see you (see you)
I took a walk the other day just hoping I'd see you (2x)
And i walkin there hoping you'd see me too.

Who do you think you are
Mister big stuff, little miss,
Quicker than a kiss
Of two innocent little kids
Who left an impression on me
Indelible, beautiful my words intelligible
What the hell could i say
I play this day back and back
And refoth like a delay
Replay but we say
The funniest things when we look back
But we look forward, toward
Where me and you could be
Lemme see,
Lemme think on it
Just a little bit
Your precious, my girl
So big in the mind
But your ego, people say that
You act kinda weird or strange with attitude
Hell, to hell with him
Good riddance, like rubbish

Let me rummage through your little mind forest
Forest for knowledge
See what I find
Maybe I'm blind to the facts
But then i just sit back and relax and think
This is probably the perfect place
We'll ever be, face to face with this memory
Of what it could be maybe you'll like me
Maybe I'll finally find what i was looking for
I don't know, but I adore
Let me go while I explore
This little show

I took a walk the other day just hoping I'd see you (2x)
I took a stroll the other day just hoping I'd see you (2x)

But where do we go from here
Lemme fight fair
'For have to jet like lear
I'm sincerely saying to you
No delayin
Maybe you could be my boo
Didn't mean to scare you
But you know who's watching, clocking
Gods eye is eying and I'm trying
But not lying to anybody with your body
Maybe this could be something more
Lemme get Pauly Shore for the occasion
4, 3, 2, 1 I'm blazing lift off
Like a jet or a shuttle
In space like Hubble
But don't break for goodness sake
Lemme take you on a ride, no mystery
No misery
But misery loves company
So just accompany me
To where i go
And we can show
The world what love looks like
I took a hike on my minds eye
In memory lane
I'm so insane and you could be my sanity
I want you for myself, like vanity

I took a walk the other day just hoping I'd see you
And when i walked by i was hoping you'd see me too
I took a walk the other day just hoping I'd see you

And if I'm lucky one day you'll see me too.

La la la la la la la

La la la la la la la

Da da da da da da da

Da da da da da Da da

I took a walk the other day...

I took a walk the other day...

11 PSYCHOROLLERCOASTER

Intro/Chorus

Psycho Roller Coaster got me feeling like I'm going under
I can't escape it, this love is like a psycho roller coaster
Psycho Roller Coaster got me feeling like I'm going under
Again

Verse 1:

Lost in the rain while I'm caught in a plane/ Chokin, hoping I'll be walking again/
Smokin, yeah I miss walks in the rain/
But I'm dope so this life should awesome again/
Timeless like a really award exchange
The mindless, ain't in my marketing range/
Target, maybe just the smart hardest alcoholics with an artist brain

A lot of you are the same, no switching it up you are the lane
'Stead of picking it up or lifting it up you bitch get a cut 'cause your heart is lame
Regardless of cars or fame I'll still be at the bottom like an artist's name
'Till my hearts stops or I'm thrown from a plane or my bodies in flame or the world goes bang

Chorus:

Verse 2:

My brain's an angry action, you react to it that's a chain reaction/
Just 'cause I knew it don't change reaction I'm the baddest all I really want is satisfaction/
Picture a futuristic, peaceful place no pugilistic/
Evil faces, euphemistic, peaceful race then swoosh you missed it/

How quickly the dream is gone, or the heartbeat that you're leaning on/
Just 'cause I'm mean don't mean I'm wrong if I mean it then I mean it in a song/
Let my mind fly high 'till I'm 9 feet high or my legs and my thighs at an elephant's eye/
You wanna get high with a helluva guy we can crash 'til we burn that's a helluva ride.

Chorus:

Bridge:

You and this psycho roller coaster
Vicious cycle of emotion
An infinite rotation
On the precipice of breaking
This psycho roller coaster got me feeling like I'm under
Again

Verse 3:
Use me up
Let me fall
Lift me up
Laugh it off
Let me breath inside of you

Oh you
Make me smile
Make me cry
Help me live
Watch me die
But oh the love is so strong
That's why the cycle goes on

Chorus:
(My love is psycho)
(This love's a cycle)

SECRET TRACK - SO YOUNG

So Young
You're so young
And one day, you'll look back and you'll say:
"I was young...
So Young...
It was fun...
I was young..."
